

# London's Greenest Hotel

THE CORNER

Furniture in rooms around the hotel are re-purposed / re-used pieces, including desks made from reclaimed wood and lamps made using old hosepipes.

Corridor lights are run on light saving sensory controls.

We work with ethical and sustainable providers; we stock the delicious SeaChange Wine.

The bar and kitchen strive to use local suppliers where possible.

Electrical consumption is 8% less than industry standard - which is equivalent to boiling 321,745 kettles.

ELECTRICAL CONSUMPTION IS 8% HAN INDUSTRY TANDARD

Non-toxic cleaning products are chosen whenever possible!

All lighting is LED and energy efficient and we have solar panels on the roof meaning our hotel runs on East London sunshine!

We recycle all plastic, paper and glass.

Super king-size mattresses from UK based Natural Mat - handcrafted, natural, organic and made from renewable and sustainable sources.

CO2 emissions are 67% less than industry average - the same as 125 family car trips around the Equator!

Bee-Kind organic toiletries.

Hansgrohe Airdrop shower heads in the bathroom mix air with water, reducing the amount of water used by 25% per minute without affecting the shower's water pressure.

Bottled filtered water is available in the rooms and in the restaurant, helping to eliminate the use of plastic throughout the hotel.

Recycling bins to separate plastic, paper and general waste.

Water consumption is 41% less than other UK hotels. That's the equivalent to four Olympic sized swimming pools.

Guests staying multiple nights who volunteer to not have their room cleaned will receive a £5 voucher to spend at the bar as our way of saying thank you for being part of our green effort.

Sustainably sourced design in every room, featuring a unique all-in-one pod that includes the bed and bathroom.
